

IRIDIUM EXTREME 9575

Iridium EXTREME Satellite Phone is most resistant handset of all Iridium's. This phone works everywhere on earth and provides the most reliable voice, data and location-based GPS satellite service in remote areas.

Its built-in GPS sensor provides an accurate real time location, and an easily accessible panic button on its top enables its user to send immediate alerts.

It is also the most rugged satellite phone on the market with military grade durability and IP-65 rated protection for our toughest customers. The Iridium Extreme is one the best solution for workers operating under hard climate an unsafe areas in non GSM covered hazardous areas.
