

STRAP-PAK™

Constructed with 2" wide by 7' long poly webbing, the **Strap-Pak™** disposable patient restraints are weight-tested to 1400 lbs. They feature a quick release Fastex buckle and loop-lock ends that may be used on spine boards with or without speed clip pins.

The **Strap-Pak™** restraints are designed to provide a cost effective disposable strapping system. For more prolonged use, the restraints can be washed or disinfected. Additionally, webbing and buckle kits are available for replacements.
