

DD TARP 4X4

The DD 4m x 4m Tarp -
the ideal size for a
Group/ Work Shelter!

It really is massive, considerably larger than our XL Tarp, and is really best suited to e.g. group shelters and work areas rather than as a one person hammock shelter.

As with all our other tarps this tarp has 19 attachment points and can be set-up in many different configurations.

Made from 190T polyester with PU 3,000mm coating. Seam is taped. Completely waterproof, even in the heaviest storms.
