

# FEBSS HydraSim® Basic System

The HydraSim® provides the illusion of external hemorrhage at the point of injury. Those that are trained have the opportunity to see and treat bleeding wounds with hemostatic dressings, pressure dressings, and tourniquets just like they would in a real situation. When coupled with the FEBSS Impact Simulation Trainer® (FIST®) the HydraSim® provides visual bleeding simulation AND the auditory impact simulation associated with the point of wounding during a traumatic event. These simple yet powerful additions increase the realism to any medical training event.

## ADDITIONAL INFORMATION

- Weight: 22 lbs.
- Color: black, coyote brown
- Style: basic or deluxe

## Basic system comes with:

- Hydrasim (FS-2001-xx)
- Re-chargeable battery pack (FS-1002)
- Hydrasim Field Pack (FS-2003-BL)
- Refill Tank (FS-1004)
- Simulation Blood Package (N0225) 2 x
- MutiSim Injury Fabrication Kit (FS-1005)
