

SUREFIRE 6 PX TACTICAL 320 LUMENS

The 6PX Tactical is just that—a flashlight designed specifically for tactical use. Providing simplicity of operation and tremendous illuminating power in a small package, it uses a high-efficiency LED—virtually immune to failure since there's no filament to burn out or break—to generate a brilliant, penetrating, perfectly pre-focused 320-lumen beam. The 6PX is activated by our classic tactical tail cap switch—press for momentary-on, twist for constant-on.

The high-strength aerospace aluminum body is smoothly sculpted for a secure grip and is hard anodized to military specifications for extreme resistance to scratches, abrasion, and corrosion. A polycarbonate micro-textured reflector delivers a comparatively wider beam with generous peripheral light. We also make a polymer-body version of this light, the G2X Tactical, and a dual-output version with a two-stage click-type tail cap switch, the 6PX Pro.

FEATURES

- Virtually indestructible LED emitter regulated to maximize light output and runtime
- Precision micro-textured reflector creates smooth, optimized beam
- Tough polycarbonate window resists impact
- High-strength aerospace aluminum body, Mil-Spec hard-anodized for extreme durability
- Tactical tail cap switch—press for momentary-on, twist for constant-on
- Weatherproof—O-ring and gasket sealed
- Includes high-energy 123A batteries with 10-year shelf life

TECHNICAL SPECIFICATIONS

- Max Output: white light 320 .0 lumens
- Tactical Runtime : 2 .5 hours
- Length : 5 .20 inches
- Bezel Diameter : 1 .25 inches
- Weight w/Batteries : 5 .2 ounces
- Batteries : 2 X 123A (included)
