

VKT8

DESCRIPTION

4° Safety grade.
Vegatek thermo-molding professional holster, internal soft lining for better protection of the firearms and less noise emission.

Triple safety system:

- the first easy action safety system on the top;
- the second Vega Pull Side which is automatically activated when the firearm is inserted in the holster and released with an easy and natural hand's move, on it there is the possibility to insert a further level of locking safety to increase the safety grade.
- Retention screw on the barrel.

Compatible with all optional belt loops.

WEAPONS

- Glock 17/19/22/23
- Sig Sauer Pro 2022
- Beretta 92/98 FS
